REHABILITATION PERFORMANCE INFORMATION

The Rehabilitation Center at Mt. Ascutney Hospital and Health Center

For more than 25 years, Mt. Ascutney Hospital and Health Center has been widely recognized and respected for its comprehensive and compassionate rehabilitative care. Our inpatient and outpatient Rehabilitation and Physical Medicine Programs are the first choice of hospitals and health care providers throughout Vermont and central New Hampshire for their patients who need intensive or ongoing rehabilitation care. One of only two major acute rehabilitation programs in Vermont, we continually strive to offer the most advanced facilities and patient-centered services.

MAHHC is the only
CARF accredited
facility in Vermont
